

## TESTOSTERONE COMPOUND

---

### **What is this medicine?**

Testosterone (tes-TOS-ter-one)

- Testosterone is a sex hormone derived from yams and may be given to men and some women who no longer produce a sufficient amount on their own.
- Testosterone is an anabolid steroid.
- In men, it may be used to reduce the symptoms of male hypogonadism (erectile dysfunction, infertility, decrease in beard and body hair growth, decrease in muscle mass, development of breast tissue, or loss of bone mass).
- It may also be used for other conditions as determined by your doctor.

**Compounded Drug Forms:** BLA tablet, sublingual tablet, fast-burst sublingual tablet, troche, vaginal suppository, vaginal tablet, cream, gel, suspension

---

### **What should I tell my health care provider before I take this medicine?**

- Allergy to testosterone
  - Male and have breast or prostate cancer
  - Have heart disease, kidney disease, or liver disease
  - Pregnant or may be pregnant, or breastfeeding
- 

### **How should I use this medicine?**

Follow the package directions provided by Belmar Pharmacy and by your prescriber. Your dosage is based on your medical condition and response to therapy. Follow the dosing schedule provided carefully.

Oral tablets may be taken with or without food, if it upsets your stomach take it with a small meal.

Sublingual tablets and fast-burst sublingual tablets should be placed under the tongue or between the cheek and gums and held in place until fully dissolved. Avoid swallowing saliva to ensure best absorption into the blood stream. Avoid eating or drinking 15 minutes before or after taking sublingual tablet.

Topical products can be applied to the inner arm, upper thigh, back of the knee, tops of feet and inner wrists. It is recommended to rotate sites to ensure even retention of the hormone. Cover treated skin with clothes to avoid contact with children's or women's skin.

Vaginal tablets or suppositories should be inserted using your finger or the applicator provided. Suppositories may leak, and may be more convenient to use at bedtime.

---

### **What if I miss a dose?**

- If you miss a dose take it as soon as possible.
  - If it is almost time for your next dose, skip the missed dose and continue with your regular dosing schedule.
  - Do not take double the dose at once.
- 

### **What should I watch for while using this medicine?**

Belmar Pharmacy recommends yearly checkups with your provider.

---
